In this groundbreaking book, Dr. John Bloom, a prominent engineer and Christian apologist, presents a compelling case for the physical evidence supporting the existence of Jesus Christ. Drawing on his expertise in engineering and his deep knowledge of the Bible, Dr. Bloom examines the archaeological evidence, historical records, and scientific data that point to the reality of Jesus' life, death, and resurrection.

Through a series of meticulously researched chapters, Dr. Bloom explores the following topics:

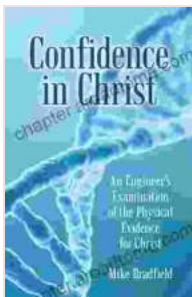

- The archaeological evidence for Jesus' life and ministry
- The historical records that support the existence of Jesus
- The scientific evidence that points to the resurrection of Jesus
- The implications of the physical evidence for the Christian faith

An Engineer's Examination of the Physical Evidence for Christ is a must-read for anyone interested in exploring the historical and archaeological evidence for the life and ministry of Jesus. This book provides a compelling case for the existence of Jesus and offers a fresh perspective on the mysteries of the Messiah.

Free Download your copy of An Engineer's Examination of the Physical Evidence for Christ today and embark on a journey that will challenge your beliefs and deepen your understanding of the Christian faith.

## About the Author

Dr. John Bloom is a prominent engineer and Christian apologist. He holds a Ph.D. in engineering from the University of California, Berkeley, and has worked for over 30 years in the aerospace industry. Dr. Bloom is the author of numerous books and articles on the intersection of science and faith, including The Case for Christ and How to Talk to Your Kids About God.
